

SNo	Common name	Binomial name	Population	Status	Notes
1	Saola	<i>Pseudoryx nghetinhensis</i>	6 – 15	CR	No individuals in captivity. Probably below the minimum viable population. The IUCN presumes extinction in the near future.
2	Pygmy hog	<i>Porcula salvania</i>	250	CR	Maximum estimate for mature individuals.
3	Rhim gazelle	<i>Gazella leptoceros</i>	250	EN	Estimate is for mature individuals only.
4	Bawean deer	<i>Axis kuhlii</i>	250 – 300	CR	Estimates are for the wild population only; may reach as high as 500.
5	Addax	<i>Addax nasomaculatus</i>	300	CR	Maximum estimate for the wild.
6	Tamaraw	<i>Bubalus mindorensis</i>	300	CR	
7	Togian babirusa	<i>Babyrousa togeanensis</i>	500	EN	Maximum estimate.
8	Walia ibex	<i>Capra walie</i>	500	EN	
9	Dama gazelle	<i>Nanger dama</i>	500	CR	Maximum estimate.
10	Hirola	<i>Beatragus hunteri</i>	500 – 2000	CR	May be much lower.
11	Anhui musk deer	<i>Moschus anhuiensis</i>	700 – 800	EN	Most recent estimate was in 1998.
12	Przewalski's gazelle	<i>Procapra przewalskii</i>	700 – 800	EN	Could be underestimated.
13	Persian fallow deer	<i>Dama mesopotamica</i>	715	EN	Previously thought to be extinct.
14	Bactrian camel	<i>Camelus ferus</i>	950	CR	Wild population only.
15	South Andean deer	<i>Hippocamelus bisulcus</i>	1048 – 1500	EN	
16	Calamian deer	<i>Axis calamianensis</i>	1123	EN	1994 estimate; has almost certainly decreased.
17	Abbott's duiker	<i>Cephalophus spadix</i>	1500	EN	Maximum estimate.
18	Cuvier's gazelle	<i>Gazella cuvieri</i>	1750 – 2950	EN	
19	Nilgiri tahr	<i>Nilgiritragus hylocrius</i>	1800 – 2000	EN	
20	Pygmy hippopotamus	<i>Choeropsis liberiensis</i>	2000 – 3000	EN	Estimate is from 1993; numbers have probably shrunk.
21	Mountain anoa	<i>Bubalus quarlesi</i>	2500	EN	Maximum estimate.
22	Visayan spotted deer	<i>Rusa alfredi</i>	2500	EN	Maximum estimate.

23	Markhor	Capra falconeri	2500	EN	Maximum estimate.
24	Mountain Nyala	Tragelaphus buxtoni	2500 – 4000	EN	2500 is a maximum estimate from 1999, but recent work has shown numbers may be as high as 4000.
25	European bison	Bison bonasus	3200	VU	Includes 1400 domestic animals and 1800 wild. Domestic numbers are likely underestimated.
26	Chacoan peccary	Catagonus wagneri	3200	EN	Estimate was made in 2002; wide-scale deforestation of their habitat began in 2003.
27	Wild water buffalo	Bubalus arnee	3 400	EN	
28	Jentink's duiker	Cephalophus jentinki	3500	EN	Maximum estimate; may be less than 2000.
29	Barasingha	Rucervus duvaucelii	3500 – 5100	VU	
30	Nile lechwe	Kobus megaceros	4291	EN	
31	Small red brocket	Mazama bororo	4500	VU	Maximum estimate.
32	Arabian tahr	Arabitragus jayakari	5000	EN	Maximum estimate.
33	West Caucasian tur	Capra caucasica	5000 – 6000	EN	
34	Barbary sheep	Ammotragus lervia	5000 – 10 000	LC	
35	Beira	Dorcatragus megalotis	7000	VU	
36	Arabian Oryx	Oryx leucoryx	7000 – 8000	VU	6000 – 7000 in captivity and ~1000 in the wild.
37	Hairy-fronted muntjac	Muntiacus crinifrons	7000 – 8500	VU	Most recent estimate was in 1998.
38	Banteng	Bos javanicus	8000	EN	Maximum estimate; may be fewer than 5000. Numbers do not include the non-purebred domestic variety.
39	Nubian ibex	Capra nubiana	10 000	VU	Maximum estimate.
40	Southern pudú	Pudu puda	10 000	VU	Maximum estimate.
41	Red goral	Naemorhedus baileyi	10 000	VU	Maximum estimate for mature individuals.
42	Four-horned antelope	Tetracerus quadricornis	10 000	LC	
43	Javan rusa	Rusa timorensis	10 000	VU	Maximum estimate for mature individuals.
44	Taruca	Hippocamelus antisensis	12 000 – 17 000	VU	
45	Gaur	Bos gaurus	13 000 – 30 000	VU	
	Soemmerring's	Nanger			

46	gazelle	soemmerringii	14 000	VU	
47	Mountain gazelle	Gazella gazella	15 000	VU	Maximum estimate.
48	Wild yak	Bos mutus	15 000	VU	Estimate is from 1995.
49	Giant eland	Tragelaphus derbianus	15 000 – 20 000	LC	
50	Black wildebeest	Connochaetes gnou	18 000	LC	Minimum estimate (11 000 wild and 7000 domesticated).
51	Grey rhebok	Pelea capreolus	18 000	LC	
52	Harvey's duiker	Cephalophus harveyi	20 000	LC	Numbers may be overestimated.
53	Pampas deer	Ozotoceros bezoarticus	20 000 – 80 000	NT	
54	Red-fronted gazelle	Eudorcas rufifrons	25 000	VU	
55	Zebra duiker	Cephalophus zebra	28 000	VU	Could be overestimated; may be less than 15 000.
56	Bongo	Tragelaphus eurycerus	28 000	NT	Two subspecies: Mountain (75 – 140) and Lowland (28 000).
57	Alpine ibex	Capra ibex	30 000	LC	Was as low as 100 individuals in the 1800s.
58	Silver Dik-dik	Madoqua piacentinii	30 000	DD	Possibly overestimated.
59	Nyala	Tragelaphus angasii	32 000	LC	
60	Ogilby's duiker	Cephalophus ogilbyi	35 000	LC	
61	Okapi	Okapia johnstoni	35 000 – 50 000	NT	
62	Mountain reedbuck	Redunca fulvorufula	36 000	LC	Minimum estimate, divided into three subspecies: Southern (33 000), Chanler's (2900), and Western (450).
63	Red forest duiker	Cephalophus natalensis	42 000	LC	Numbers may be underestimated.
64	Klipspringer	Oreotragus oreotragus	42 000	LC	Estimate is considered conservative.
65	Blackbuck	Antilope cervicapra	50 000	NT	Numbers have increased from 20 – 24 000 in the 1970s.
66	Spanish ibex	Capra pyrenaica	50 000	LC	Numbered only ~7900 in the early 1990s.
67	Saiga Antelope	Saiga tatarica	50 000	CR	Numbers stood at 1 250 000 in the mid-1970s.
68	Royal antelope	Neotragus pygmaeus	62 000	LC	Possibly underestimated.
69	East African	Oryx beisa	67 000	NT	Divided into two subspecies: Beisa (50 000) and

	oryx				Fringe-eared (17 000).
70	Southern reedbuck	Redunca arundinum	73 000	LC	
71	Sable antelope	Hippotragus niger	75 000	LC	
72	Roan antelope	Hippotragus equinus	76 000	LC	
73	Giraffe	Giraffa camelopardalis	80 000	LC	Maximum estimate.
74	Mountain goat	Oreamnos americanus	80 000 – 119 000	LC	
75	Gerenuk	Litocranius walleri	95 000	NT	
76	Sharpe's Grysbok	Raphicerus sharpei	95 000	LC	Difficult to study due to the animal's nocturnal nature; numbers may be underestimated.
77	Japanese serow	Capricornis crispus	100 000	LC	
78	Black duiker	Cephalophus niger	100 000	LC	
79	Bohor reedbuck	Redunca redunca	101 000	LC	Probably underestimated.
80	Dall sheep	Ovis dalli	111 500 – 116 500	LC	
81	Lesser kudu	Tragelaphus imberbis	118 000	NT	Minimum estimate.
82	Goitered gazelle	Gazella subgutturosa	120 000 – 140 000	VU	
83	Hippopotamus	Hippopotamus amphibius	125 000 – 148 000	VU	
84	Puku	Kobus vardonii	130 000	NT	
85	Common eland	Tragelaphus oryx	136 000	LC	
86	Yellow-backed duiker	Cephalophus silvicultor	160 000	LC	
87	Red-flanked duiker	Cephalophus rufilatus	170 000	LC	
88	Sitatunga	Tragelaphus spekii	170 000	LC	Yet-to-be-published research suggests the population has been overestimated.
89	Weyns's duiker	Cephalophus weynsi	188 000	LC	
90	Waterbuck	Kobus ellipsiprymnus	200 000	LC	About 95 000 of the Defassa subspecies and 105 000 of the Common.
91	Lechwe	Kobus leche	212 000	LC	Combined numbers of three subspecies: Red (98 000), Kafue (78 000), and Black (36 000).
	Bates's pygmy	Neotragus			

92	antelope	batesi	219 000	LC	
93	Water chevrotain	Hyemoschus aquaticus	278 000	LC	
94	White-bellied duiker	Cephalophus leucogaster	287 000	LC	
95	Black-fronted duiker	Cephalophus nigrifrons	300 000	LC	
96	Vicuña	Vicugna vicugna	347 273	LC	
97	Grant's gazelle	Nanger granti	350 000	LC	
98	Hartebeest	Alcelaphus buselaphus	362 000	LC	
99	Suni	Nesotragus moschatus	365 000	LC	
100	Gemsbok	Oryx gazella	373 000	LC	
101	Peters's duiker	Cephalophus callipygus	382 000	LC	
102	Mongolian gazelle	Procapra gutturosa	400 000	LC	Estimate has dropped from 2 700 000 since 1998.
103	Greater kudu	Tragelaphus strepsiceros	482 000	LC	
104	Salt's dik-dik	Madoqua saltiana	485 600	LC	
105	Günther's dik-dik	Madoqua guentheri	511 000	LC	
106	American bison	Bison bison	530 000	NT	Includes 500 000 domestic animals and 30 000 wild (19 000 plains bison and 11 000 wood bison).
107	Guanaco	Lama guanicoe	535 750 – 589 750	LC	
108	Thomson's gazelle	Eudorcas thomsonii	550 000	NT	
109	Steenbok	Raphicerus campestris	600 000	LC	Considered an underestimate.
110	Pronghorn	Antilocapra americana	700 000	LC	Numbered over 35 million in the early 1800s and as little as 20 000 in the early 1920s.
111	Bay duiker	Cephalophus dorsalis	725 000	LC	
112	Oribi	Ourebia ourebi	750 000	LC	
113	African buffalo	Syncerus caffer	890 000	LC	Considered conservative. Divided into four subspecies: West African Savanna (27 000), Central African Savanna (133 000), Southern Savanna (670 000), & Forest (60 000).
114	Kirk's dik-dik	Madoqua kirkii	971 000	LC	

115	Siberian roe deer	Capreolus pygargus	1 000 000	LC	About 500 000 were hunted annually in Russia in the 1800s.
116	Bushbuck	Tragelaphus scriptus	1 340 000	LC	Estimate is considered conservative.
117	Eurasian elk	Alces alces	1 500 000	LC	
118	Blue wildebeest	Connochaetes taurinus	1 550 000	LC	
119	Common duiker	Sylvicapra grimmia	1 660 000	LC	Considered extremely conservative; yet-to-be-published research shows it may number as high as 10 000 000.
120	Impala	Aepyceros melampus	2 000 000	LC	
121	Springbok	Antidorcas marsupialis	2 000 000 – 2 500 000	LC	
122	Maxwell's duiker	Philantomba maxwellii	2 137 000	LC	Quite possibly underestimated.
123	Blue duiker	Philantomba monticola	7 000 000	LC	Estimate is considered conservative.
124	Domestic goat	Capra aegagrus hircus	850 000 000	Domesticated	
125	Cattle	Bos primigenius	1 000 000 000	Domesticated	
126	Domestic pig	Sus scrofa domesticus	1 000 000 000	Domesticated	
127	Domestic sheep	Ovis aries	1 000 000 000	Domesticated	
128	Water buffalo	Bubalus bubalis	172 000 000 incl. 3.2 Million Carabao in the Phillippines	Domestic
